

## SUPPLEMENT FOR LACTATING DAIRY COWS

DRY MATTER ..... 99.00%  
 MOISTURE ..... 1.00%

	GUARANTEED ANALYSIS	TYPICAL AS FED	TYPICAL 100% DRY MATTER
Potassium, as K, wt %	53.00 Min	53.10	53.64
Crude Fat, wt %	5.00 Min	5.02	5.07

### TYPICAL ANALYSIS

Potassium Carbonate, as K <sub>2</sub> CO <sub>3</sub> , wt %	94.90	95.86
Cation/Anion Balance, meq/100g	1370.67	1384.52
Stearic, (C18:0), g/100g	4.60	4.65

### PHYSICAL PROPERTIES:

< #20 ..... 0.85 mm  
 ≥ #80 ..... 0.18 mm

**BULK DENSITY:** 81 lbs. / cu. ft.

### PACKAGING OPTIONS:

611-SX50LB ..... 50 lb. poly bags  
 611-SX2000 ..... 2000 lb Tote  
 611-BKBLDG ..... Bulk

### DIRECTIONS FOR USE:

Keep strongly acidic and basic material in feed and during mixing separate to avoid heating. Add potassium carbonate to the mixer last.

### PRODUCT DESCRIPTION:

K-Carb Plus is a coated granular potassium carbonate and is white in color. The coated nature of this product is a means to protect the material from the heat of hydration and offers improved shelf life. This offers the feed formulator a high level "K" that is safer to use in feed preparation.

### INGREDIENTS:

Potassium carbonate and hydrogenated soybean oil
