

Technical Data

AMMONIUM SULFATE MID-GRADE

ORIGINATION, LLC
O₂D

CAS No: 7783-20-2

CAS No: (NH₄)₂SO₄

General Ammonia Sulfate is a high purity, free-flowing and non-caking inorganic salt. Its appearance is granular and white in color.

Nutrient Properties

Ammonium Nitrogen, as N, wt %
Sulfur, as S, wt %
Free Acidity, as H₂SO₄, wt %
Moisture + Anticaking Agent, wt %

Specification

21.00 Minimum
24.00 Minimum
0.10 Maximum
1.00 Maximum

Physical Properties

(cumulative % retained)

Retained on a #8 Screen, %	2.38 mm	1.0%
Retained on a #10 Screen, %	2.00 mm	32.0%
Retained on a #12 Screen, %	1.68 mm	74.0%
Retained on a #14 Screen, %	1.41 mm	94.0%
Retained on a #16 Screen, %	1.19 mm	100%

Bulk Density, lbs./cu. ft. 63 - 67

Packaging Options

Bulk, Totes
