

Technical Data

L-TRYPTOPHAN

Feed Grade

ORIGINATION, LLC
O₂D

CAS No.	73-22-3	
Formula	C ₁₁ H ₁₂ N ₂ O ₂	
Product Description	Feed Grade L-Tryptophan is a high purity amino acid. It's appearance is a tan powder.	
Nutrient Properties	Specification	Typical
L-Tryptophan, wt %	98.00 Minimum	98.60%
Loss on drying		Less than 1.0%
Heavy Metals		Less than 20ppm
Physical Properties		
Particle Size Distribution, US Mesh		
Retained on a #100 screen	35.00	
Retained on a #200 screen	26.00	
Retained on a #325 screen	19.00	
Passing a #325 Screen	20.00	
Bulk Density, lbs./cu. ft.	24.00 - 32.00	
Packaging Options	10 kg bag
